The 1st Annual Motorama Grand Champion Award and the \$5,000 that go with it went to Eric Boily of Trois-Rivières, QC whose subtle but flawless Pro-Touring big block Chevy powered 1971 Chevy El Camino wowed the Motorama judges. Car was built by Showtime Muscle Cars in Laval, QC with Ontario's Boothill Automotive Resurrection performing a lot of custom work in the interior. Bed, below, was immaculate.

MOTORAMA CUSTOM CAR

March 13-15 **& MOTORSPORT EXPO**
Mississauga, ON

Custom car shows have been an annual fixture at the International Centre in Mississauga, ON for years but 2015 marked the first time such a show was produced by the publishers of Inside Track magazine. The group combined the custom car show with their motorsports show, which used to take place in February at the same venue. The result of this amalgamation was the 1st Annual Motorama Custom Car & Motorsports Expo. The combination of both events was a natural and combined with the Karbelt Automotive Racing Specialty Expo and special guests such as two-time NASCAR Truck Series champion Todd Bodine and PowerBlock TV host Courtney Hansen (right) there was certainly plenty to keep any gearhead occupied. Looking forward to their 2nd annual show and hopefully many, many more in the years to come.

Jamie Hamilton's '56 Chevy is a time machine set for the late '60s. Love the look and the SBC with four carb intake and finned valves covers is engine bay jewelry.
